

Rx CLEAR STAIN OFF

Rx Clear Ultra Stain Off: A liquid chelating agent designed to stop the formation and remove existing rust and scale. Use as a preventative measure when you open your pool by adding 1 quart per 20,000 gallons. Maintain by adding 5 oz per 15,000 gallons each week. For removal of brown, grey or black stains from fiberglass pools and spas, also works on marcite and vinyl pool surfaces.

****These stains are not to be confused with algae growth****

RECOMMENDED PROCEDURE

Initial Application:

1. Adjust Total Alkalinity to 70 ppm.
2. Adjust Calcium Hardness to 400 ppm
3. Circulate pool for 2 hours
4. Adjust pH to 7.4
5. Circulate pool for 1 hour, then turn pump off.
6. Allow pool to become completely calm.
7. Sprinkle Stain Off into pool over main spotted areas. Use 1 lb for every 10,000 gallons.
8. Let site for 1 hour, then turn pump off.

Maintenance Application:

For calcium hardness levels less than 300 ppm:

Add 6 ounces per 10,000 gallons of pool water once a month.

For calcium hardness levels greater than 300 ppm:

Add 6 ounces per 10,000 gallons twice a month.

WARNING: Contains mild acid. Harmful if swallowed. May irritate skin, eyes, nose and throat. Keep container closed. Store in a cool dry ventilated area.

FIRST AID

If in eyes: Flush thoroughly with water for 5 minutes. If irritation develops, contact a physician.

If on skin: Wash contacted area with soap and water. If irritation develops, contact a physician.

If swallowed: Drink several glasses of water. Obtain medical attention if gastrointestinal irritation occurs.

If inhaled: Remove to fresh air.
