

Winter Cover Wrap

A specially formulated blue stretch film that is designed to wrap tightly around the top of an above ground pool to help secure the winter cover and protect it from wind damage. In addition to helping secure the cover, the cover wrap seals the pool to keep out dirt and help keep it clean. Winter Cover Wrap works great in conjunction with our other winterizing products— Buffalo Blizzard Wind Guard Clips. Made from a special blend of UV stabilized resins, the stretch film holds tight even in extreme cold temperatures and resists degradation from sunlight. The film holds tight, but is easy to remove in the spring. It sticks to itself, not to your pool and cover. The generous 500' X 14 ½" inch roll permits multiple layers of wrapping that creates a really tight seal.

Pool Diameter	Wall Circumference	Wrap Layers Per Roll	Rolls Needed
12' Round	37.70'	13	1
15' Round	42.12'	10.5	1
18' Round	56.55'	8.5	1
21' Round	65.97'	7.5	1
24' Round	75.40'	6.5	1
27' Round	84.82'	5.5	2
30' Round	94.25'	5	2
