

Coverfree® Instructions Directions for use: 1. Shake product vigorously. 2. Weekly with circulation system running, add 4 oz. per 675 sq. ft. (20,000 gallons) of surface area. Note: Skimmer application is preferred, however, Coverfree can be added directly to pool water. Important: Circulation system must be running for either application. Note: Reapply after heavy bather load due to splash out/drag out and heavy rain due to dilution and loss to overflow drains. For areas affected by drought or extreme conditions:

Dose twice per week.
