

- Fasten 3 screws #10 in the pre-drilled holes at each side of the B tube to secure the assembly.

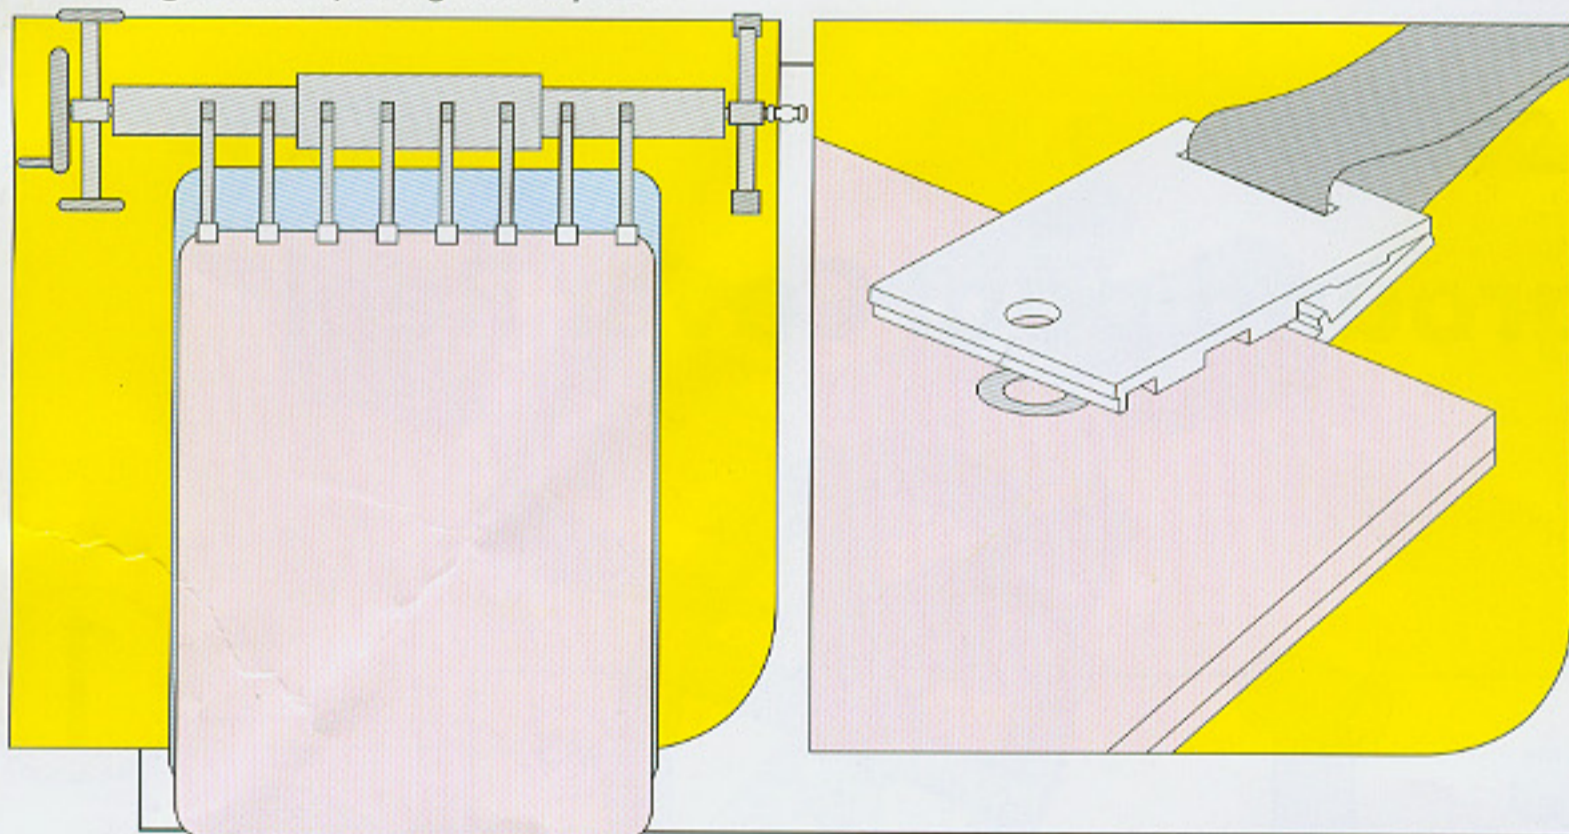

- Detach the 8 male velcro sticker #11 from the straps #12, peel off the protective layer and glue them on the tubes in a straight line at equal distance over the length X as shown.

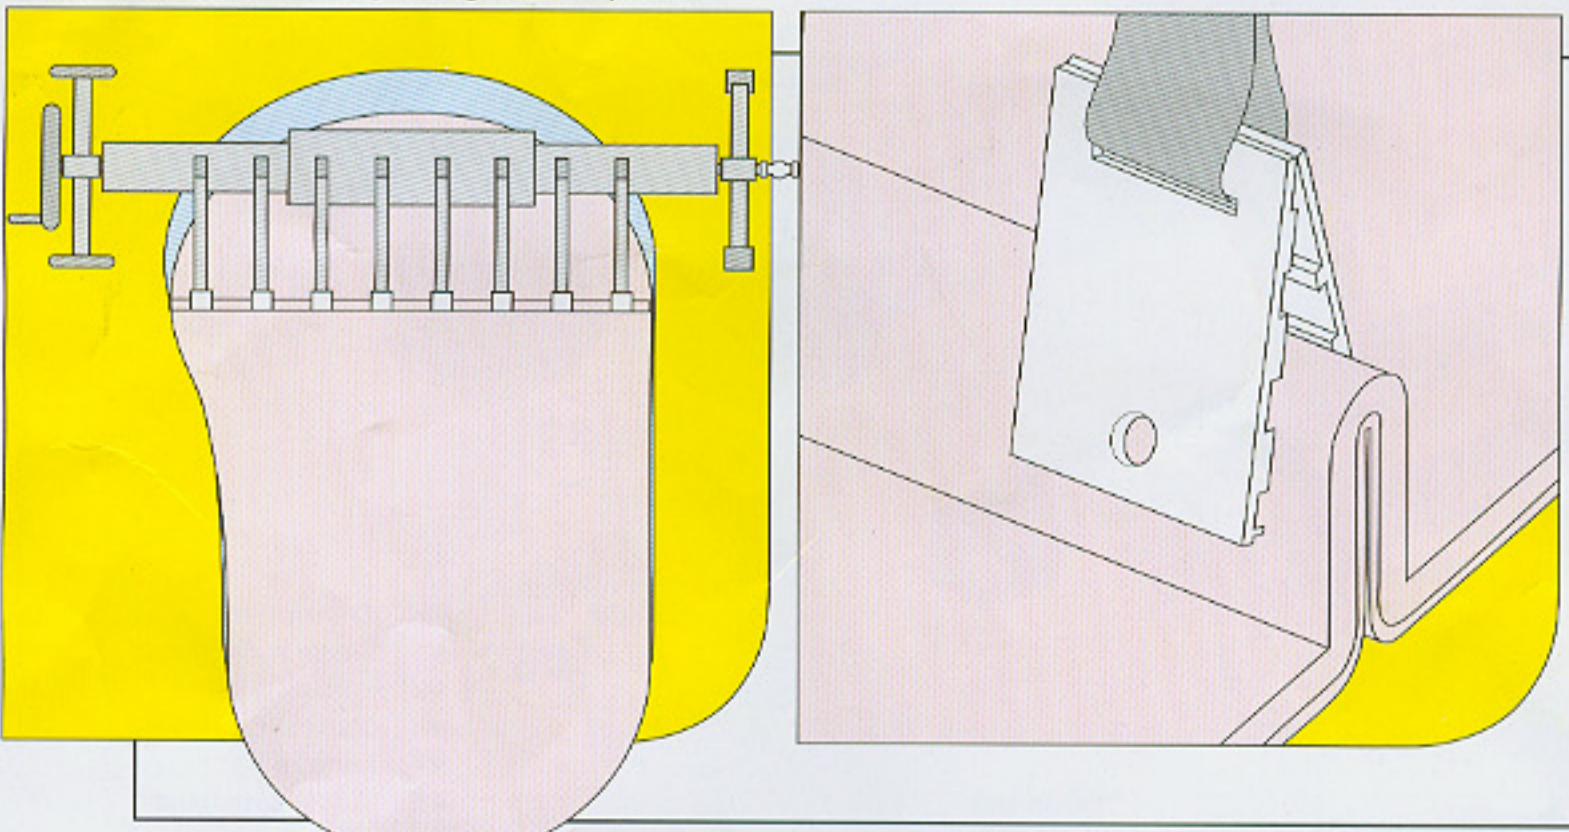

- Assemble the straps # 12 to the buckles #13 and to the cover clips #14 as shown on the drawing.
- Do not snap the clip yet.

For a regular shape inground pool

- Open cover over the pool and set into position. Attach the clips #14 in the cover at the same regular intervals as the male velcro sticker on the tubes.
- Ensure that the length of the straps allows the cover to lay flat on the pool, to prevent the wind from getting under the cover.

For an irregular shape inground pool

- Put your cover in position on the pool, and pinch it like on the drawing.
- Attach the clips #14 in the cover at the same regular intervals as the male velcro sticker on the tubes.
- Ensure that the length of the straps allows the cover to lay flat on the pool, to prevent the wind from getting under the cover.
