

Innovalite 9018

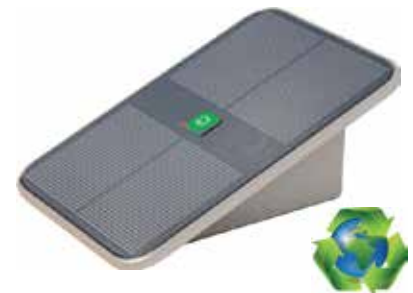

Solar-powered wall-mounted white LED light for aboveground pools.

- High-output COB (Chip On Board) LED light.
- Solar-powered lighting guaranteeing 3 hours of autonomy thanks to a lithium battery.
- Very bright natural white lighting!
- Solar panel can be installed on top lip.
- Easy installation or winterizing in minutes on metal or resin pools: no need to remove the pool top seal, no tools required.
- Ecological and renewable energy.
- No more extension cord on the lawn.
- The LED bulb will never need replacement.
- Patent-pending Lumi-O | Innovaplas innovation!

Wedge with straps stabilizes the light housing to keep it in place.
